Dear colleagues,

The Organizing Committee cordially invites you to Zagreb to take part in the **28th Ljudevit Jurak International Symposium on Comparative Pathology with One Health Session**.

This symposium summons international collaboration and involves an array of professionals within the field of pathology. What separates and defines this symposium is collaboration with veterinary pathologists and the comparison of pathologic changes in human and veterinary medicine. With this symposium we honor Professor Ljudevit Jurak, who founded the first pathology department in Croatia, in Sestre milosrdnice University Hospital Center. Professor Ljudevit Jurak contributed greatly to veterinary and human pathology as well as forensic medicine, and represents a historical and eminent figure in the field of pathology both in Croatia and worldwide (<https://www.kbcm.hr/jurak/category/simpoziji/>).

All pathologists dealing with human and veterinary pathology as well as forensic pathologists are invited to participate in this multidisciplinary meeting and engage in a variety of discussions, social gathering and enjoyment.
