

Kongresi i prezentirani preliminarni rezultati

- 1. EACR 2022 Annual Congress of the European Association for Cancer Research Savilla, Španjolska, 2022. EACR22-0247, 1 (poster, međunarodna recenzija, sažetak, znanstveni)**

Šamija, Ivan; Periša, Josipa; Blažeković, Ivan; Romić, Matija; Regović Džombeta, Tihana; Granić, Roko; Jukić, Tomislav; Fröbe, Ana; Kusić, Zvonko
No association between BRAF V600E mutations and aggressive clinicopathologic features in Croatian patients with papillary thyroid carcinoma
//

- 2. 10th International Congress of the Croatian Society of Nuclear Medicine Vodice, Hrvatska, 2021. str. /-/ (poster, recenziran, sažetak, znanstveni)**

Blažeković, Ivan; Romić, Matija; Periša, Josipa; Nižetić, Mia; Franceschi, Maja; Jukić, Tomislav; Šamija, Ivan; Kusić, Zvonko
Distribution of TERT promotor mutation in regard to clinical presentation of papillary thyroid cancer //

- 3. EACR 2021. Virtual congress Book of Abstracts virtualno, virtualno, 2021. str. 69-69 (poster, međunarodna recenzija, sažetak, znanstveni)**

Šamija, Ivan; Periša, Josipa; Blažeković, Ivan; Romić, Matija; Nižetić, Mia; Regović Džombeta, Tihana; Franceschi, Maja; Jukić, Tomislav; Fröbe, Ana; Kusić, Zvonko
Frequency of BRAF V600E mutated alleles in patients with papillary thyroid cancer and its association with metastatic status

- 4. Epigenetics and Male Reproductive Health Symposium, March 29, Zagreb**

Ivan Šamija, Genetic and epigenetic markers as indicators of aggressiveness of differentiated thyroid cancer, 2023

- 5. EACR2023 - Annual Congress of the European Association for Cancer Research, Torino, Italy**

Periša, Josipa ; Šamija, Ivan ; Blažeković, Ivan ; Romić, Matija ; Raos, Dora ; Sinčić, Nino ; Jukić, Tomislav ; Fröbe, Ana ; Kusić, Zvonko
Association of TERT gene promoter methylation with the aggressiveness of differentiated thyroid cancer //
